DEAR FRIENDS,

It is my privilege to present the Ivinson Memorial Hospital (IMH) Foundation's Fiscal Year 2026 Annual Report. Within these pages, we celebrate the accomplishments of the past year, share the impact of our donors' generosity, and provide an overview of the Foundation's financial position.

This year was marked by meaningful progress and continued growth. From record-setting fundraising events, to investments that strengthen patient care, each accomplishment reflects the dedication of our donors, sponsors, volunteers, and community partners.

Your support helps IMH continue providing high-quality, compassionate care close to home. It also allows the Foundation to meet the Hospital's evolving needs and invest in projects that benefit patients, families, and employees.

Thank you for your continued support of IMH and the Foundation, and for helping us strengthen the health and well-being of those we serve.

Sincerely,

Shannon Polk

FALL

HEALTH LINKS GOLF TOURNAMENT

The 28th Annual Health Links Golf Tournament was held Friday, August 8, 2025, at the University of Wyoming Jacoby Golf Course. The tournament welcomed 21 teams and 83 golfers for a morning of friendly competition in support of the Meredith and Jeannie Ray Cancer Center.

For nearly three decades, the Health Links tournament has brought golfers, businesses, volunteers, and community members together in support of patient care at Ivinson. The 2025 tournament continued this tradition with an 18-hole scramble featuring prizes, course games, and opportunities for participants to connect while supporting the Cancer Center.

One of the day's most exciting moments came when Zack Jacobsen recorded a hole-in-one. With support from Laramie GM Auto Center, this achievement was recognized during the awards ceremony and became a memorable highlight of the tournament.

Following the round of golf, players gathered for lunch and awards to recognize the day's top teams and winners of the course games. The celebration also offered an opportunity to reflect on the impact participants helped make through their involvement in the tournament.

The continued success of Health Links is made possible by the generosity of businesses, individuals, volunteers, and golfers who support the tournament each year. We are especially grateful to Bill Werner for serving as Event Sponsor for the fourth consecutive year, and for his continued commitment to the IMH Foundation. Together, tournament supporters generated record net proceeds of $46,963 for the Meredith and Jeannie Ray Cancer Center.

LA GRANDE FLEUR
A SILVER SCREEN SPECTACULAR

The 2025 La Grande Fleur set the stage for a night of Hollywood glamour and generosity. Chaired by Rebecca and Craig Rood, *LGF: A Silver Screen Spectacular* featured casino games, a silent auction, dinner, and dancing in support of the Meredith and Jeannie Ray Cancer Center Infusion Room Renovation Project.

During the evening's program, Amy Smith, Director of the Meredith and Jeannie Ray Cancer Center, shared moving remarks about the project and the compassionate care provided by the Cancer Center team. Guests also viewed a video featuring two Cancer Center patients whose personal stories offered a reminder of the difference thoughtful care can make throughout a patient's cancer journey.

One of the evening's defining moments came during the paddle raise. Guests generously contributed $100,000, and John Evans provided a matching gift of $50,000, bringing the total to $150,000. This set a new paddle raise record and demonstrated the community's commitment to the project.

This achievement truly made LGF 2025 an evening to remember. The celebration was made possible by the creativity and dedication of its hosts, sponsors, committee members, volunteers, donors, and guests, whose commitment brought the silver screen vision to life while helping to support the important work being done in the Cancer Center.

FOUNDATION FUNDING REQUESTS

Each year, departments throughout IMH are invited to submit requests to the Foundation for equipment and special projects that support patient care. These requests often address needs outside of the Hospital's standard budgeting process and may include new technology, equipment upgrades, educational tools, or resources that improve patient safety and comfort.

The Foundation's Funding Committee carefully reviewed and evaluated each application. During the FY26 funding cycle, the Foundation awarded over $100,000 to support 13 projects across 10 departments. In addition, an extra ~$27,000 was provided through Special Projects funding as there had been an increase in requests during FY26.

The funded projects included diagnostic technology, surgical equipment, and simulation tools. Each investment helped IMH employees continue to provide high-quality, compassionate care to our community.

PROJECTS FUNDED

Cancer Center – Water Bath Upgrade	$4,960.00
Women's Health – Outpatient Nitrous Oxide System	$6,500.00
Ambulatory Services – Pediatric Mannequin	$1,600.00
Women & Children's Center – Neonatal IV Mannequin Arm	$1,300.00
Surgery – Berkeley Suction Machine	$6,600.00
Behavioral Health Services – Safety Restraint Chair	$5,000.00
Dialysis – Butterfly Ultrasound	$5,399.00
Medical/Surgical – Bariatric Scale	$3,994.00
Ear, Nose, and Throat Clinic – Microscope	$15,385.00
Surgery – Integra Floor Stand Xeon Light Source	$15,200.00
Surgery – Stryker Bone Mill	$16,100.00
Dialysis – CRIT Lines	$4,200.00
Vascular Access – Upgraded Ultrasound	$40,650.00
	Total: $126,888.00

(All amounts are rounded to the nearest dollar.)

HIGHLIGHTED PROJECT: VASCULAR ACCESS ULTRASOUND

The Vascular Access Team uses ultrasound guidance to place peripherally inserted central catheter (PICC) lines for patients who require long-term intravenous therapies, including chemotherapy, antibiotics, nutritional support, and other critical medications. Many of these patients are immunocompromised, acutely ill, or living with complex medical conditions, making safe and accurate placement crucial.

The Foundation provided $40,650 to purchase an upgraded ultrasound system, replacing equipment with limited image quality and functionality. The new system offers sharper imaging, improved portability, and tools to help the team identify the safest vein in order to place lines more efficiently. For patients, this can mean fewer needle sticks, less discomfort, faster treatment, and reduced risk of complications.

The IV Access Team serves patients in various departments throughout the Hospital, including the Emergency Department, Oncology, Surgery, and the Medical-Surgical units. The new ultrasound is expected to remain in use for 7 to 10 years, making it a lasting investment in patient safety, comfort, and quality of care.

"AN INVESTMENT IN THIS EQUIPMENT IS AN INVESTMENT IN QUALITY, SAFETY, AND THE PATIENT EXPERIENCE."

— Amy Smith, FNP-BC, Director of the Meredith & Jeannie Ray Cancer Center and Vascular Access Team Leader

SUPPORTING IMH EMPLOYEES

CLASSROOM TO CAREERS PROGRAM SUCCESS

FY26 marked an exciting milestone for Classroom to Careers as the Foundation distributed the final portion of its $100,000 commitment to IMH. The Foundation first committed to supporting the program in 2023, recognizing its potential to strengthen recruitment and create new pathways into healthcare careers.

Classroom to Careers provides eligible students with up to $10,000 in educational assistance as they prepare for careers across a variety of healthcare disciplines. When possible, participants may also complete clinical or capstone experiences at Ivinson, giving them an opportunity to become familiar with the Hospital, its employees, and the work environment before beginning their professional careers.

The final distribution completed the Foundation's original commitment, though the investment will continue beyond FY26. By reducing financial barriers to education and creating a smoother path from the classroom to employment, the Classroom to Careers program supports recruitment for critical nursing and ancillary positions while encouraging future healthcare professionals to build their careers at Ivinson and serve patients close to home.

$100,000

FOUNDATION COMMITMENT COMPLETED IN FY26

$1,120

GIVEN TO 13 EMPLOYEES TO PARTICIPATE IN WELLNESS ACTIVITIES

EMPLOYEE WELLNESS FUND

Supporting the health and well-being of IMH employees is another important way the Foundation helps strengthen the Ivinson team. The Employee Wellness Fund recognizes that the people who care for our communities also benefit from opportunities to prioritize their own health. By covering registration costs, the fund makes it easier for employees to participate in 5K races, bike races, marathons, team competitions, and other activities to promote healthy and active lifestyles. The annual Run For Your Life 5K Run and 2K Walk is the yearly IMH fundraiser to help replenish the fund, along with donations received throughout the year. This event also creates another way for employees to encourage and support one another while focusing on health and wellness.

During FY26, the fund provided $1,120 in assistance to 13 employees to participate in wellness activities. Individuals competed in a variety of races, and several IMH employees created a softball team to compete on a co-ed league.

PINK WITH PURPOSE

During Breast Cancer Awareness Month, IMH employees and the Foundation team came together to recognize patients, survivors, and families impacted by breast cancer. Employees participated in Wear Pink Day, filling the Hospital with color and encouragement. The Foundation team extended this effort into the community by creating a special entry for the Bras with a Cause fundraiser titled "Diamonds are a Girl's Breast Friend". Funds raised through this event benefit the Wyoming Breast Cancer Initiative, which supports breast cancer awareness and early detection while providing support services across Wyoming. Together, these activities offer meaningful and creative ways to recognize those affected by breast cancer and advance this important work throughout the state.

PATIENT ASSISTANCE FUND

The Patient Assistance Fund helps remove financial and logistical barriers that may prevent patients from accessing treatment or receiving follow-up care. Supported by the generosity of IMH employees and community donors, the fund provides assistance with transportation, travel costs, prescription medications, and temporary lodging. During FY26, more than $5,300 in assistance was provided to approximately 80 patients.

IMH employees also support the fund through quarterly Fun Top Friday events. Employees who contribute are invited to wear their Patient Assistance Fund shirt, another fun shirt, or a fun scrub top, creating a visible show of support throughout the Hospital. These contributions help ease some of the practical challenges patients and families experience, allowing them to focus more fully on treatment, recovery, and healing.

$5,354

CONTRIBUTED TO ASSIST 80 PATIENTS IN FY26

WINTER

GOLDEN KEY CLUB

The Golden Key Club recognizes individuals and businesses whose significant lifetime giving and continued annual support have made a lasting difference at Ivinson Memorial Hospital. These donors are among the Foundation's most dedicated partners, helping advance patient care, support Hospital initiatives, and strengthen healthcare services throughout the community.

In November 2025, the IMH Foundation hosted the annual Golden Key and Donor Appreciation Dinner. The evening brought together Golden Key Club members and donors of the Capital Campaign supporting the Emergency Services Facility Expansion and Renovation Project to celebrate the historic success of the campaign.

Membership represents more than a level of giving, it reflects an enduring relationship with the Foundation and a shared commitment to ensuring exceptional care remains available close to home. Through their continued involvement, Golden Key members help extend the Foundation's impact throughout Ivinson and into the community it serves.

JOHN EVANS AND BARB JESSE:
NEW MEMBERS OF THE GOLDEN KEY CLUB

GOLDEN KEY MEMBER IMPACT

The Ivinson Memorial Hospital Foundation's Golden Key Club recognizes the generosity of donors whose ongoing support helps advance the Foundation's mission. In January 2026, the IMHF Board of Directors updated the policy outlining Golden Key Club membership and recognition.

Individuals and couples become members after reaching $25,000 in lifetime giving, while businesses qualify at $50,000. To maintain active membership, individuals and couples provide an annual gift of at least $1,500, and businesses provide an annual gift of at least $5,000. Giving is averaged over three calendar years, and eligible giving can include donations, event tickets, and sponsorships.

Donors who reach higher lifetime giving milestones may be considered for lifetime membership with approval from the Donor Relations Committee. Through the Golden Key Club, the Foundation celebrates the donors whose ongoing generosity help build our capacity to support important hospital and community needs.

A LASTING TRIBUTE

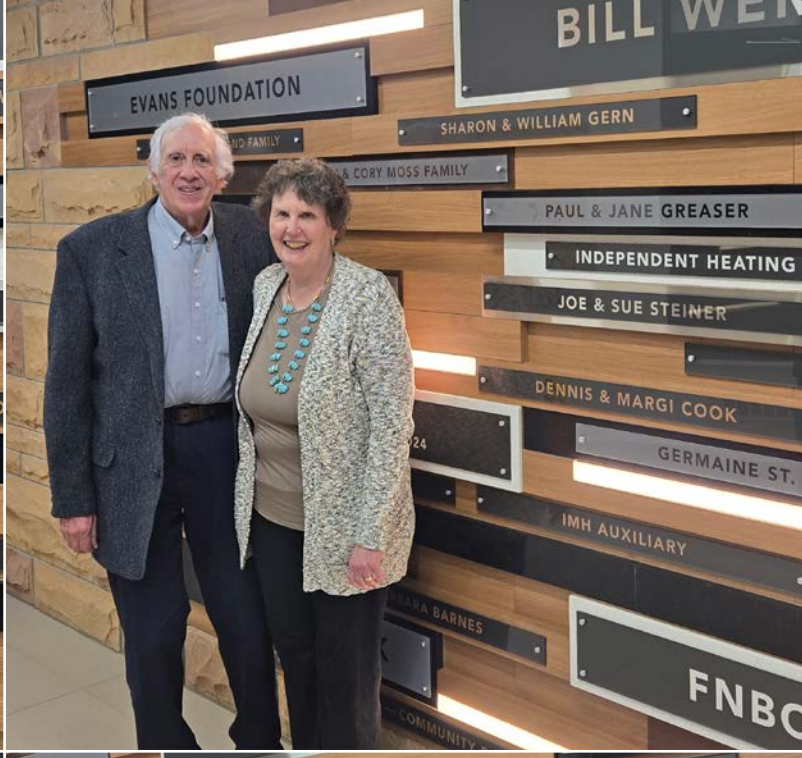

The donor recognition wall located in the winter garden of the Janey Hampton Evans Emergency Services Facility honors the individuals, businesses, foundations, and community partners who supported the expansion and renovation project. Each name represents a contribution to the campaign that transformed the facility and strengthened Ivinson's ability to care for patients throughout Laramie and the surrounding area.

Serving as more than a record of the campaign, the wall is also a visible reminder of the community's shared commitment to local healthcare. It provides an opportunity for the IMH Foundation to recognize and thank those whose support helped make this project possible. Their contributions continue to make a difference for patients and families receiving emergency care at Ivinson.

THE GIVING TREE

Each holiday season, the IMH Foundation Giving Tree fills the Foundation Office with gifts and food baskets, displaying the generosity from the Ivinson community. IMH employees, Foundation Board members, and community members come together to help make the holidays brighter for Ivinson employees and their families. In December 2025, the Giving Tree supported 19 families. This included gifts and clothing for 37 children and 17 food baskets. In total, ~300 donated items were collected and distributed.

The Foundation partners with the IMH Social Workers Janae Vessely and Morgan Pfister to collect gifts and food requests, which are displayed as ornaments on the Giving Tree in the Hospital's west atrium. "Secret Santas" select an ornament, purchase and wrap the requested items, and return the gifts to the Foundation Office. Very quickly, the office fills with presents ready to be shared with families. This holiday tradition demonstrates how the Ivinson community comes together to care for one another during the holiday season.

SPORTSMAN RAFFLE

On Saturday, February 14, 2026, over 600 outdoor enthusiasts gathered at the University of Wyoming Fieldhouse for the 13th Annual Sportsman Raffle. Guests enjoyed dinner, drinks, and an exciting evening of drawings for outdoor prizes and experiences.

The 2026 prizes included a Prairie Monarch Bison Ranch hunt, a variety of shotguns and sporting rifles, fishing trips, and an assortment of outdoor and camping equipment. These prizes and experiences were made possible through the generosity of the event sponsors and donors.

SPRING

A COMMITMENT FULFILLED

To help meet the growing need for cancer treatment in our community, the IMH Foundation Board committed to raising $750,000 over two years for the Meredith and Jeannie Ray Cancer Center Infusion Room Renovation project. The community responded to this commitment with extraordinary generosity. Through the support of donors, sponsors, and event guests, the Foundation exceeded its goal, raising $860,288 in just one year—a full year ahead of schedule!

Reaching this goal marked an important milestone and brought the Cancer Center one step closer to a space designed to serve more patients, while continuing to provide compassionate cancer care close to home.

$860,288

RAISED FOR THE INFUSION ROOMS

DESIGNED AROUND PATIENTS

As the number of patients receiving care at the Meredith and Jeannie Ray Cancer Center continues to grow, the planned renovation will expand and reconfigure the existing space to create a more functional and adaptable environment centered on patients, families, and caregivers.

The renovated space will include:

- Additional infusion bays with greater privacy.
- Flexible rooms that can serve as private infusion bays or exam spaces.
- Private offices for the nurse navigator and patient advocate.
- Larger, redesigned waiting area.
- Relocated and more accessible Resource Center.
- Reconfigured nurse workstation and patient entrance.
- Infrastructure improvements supporting the space's long-term functionality.

Jeannie's Boutique will remain an important part of the Cancer Center, continuing to provide wigs, prosthetics, and other supportive products at no cost to patients.

Construction has been carefully planned and phased so the Cancer Center can continue serving patients throughout the renovation.

HONORING A LEGACY OF GENEROSITY

During FY26, the IMH Foundation invited donors represented on the Meredith and Jeannie Ray Cancer Center donor wall to a special open house. As the wall was prepared for relocation to accommodate the expanded infusion room space, the gathering offered an opportunity to recognize donors and thank them for their significant support of cancer care at Ivinson.

For years, the donor wall served as a visible reminder of the generosity that helped build and strengthen the Meredith and Jeannie Ray Cancer Center. Although the wall will have a new location, the impact represented by each name will remain an important part of its story. The open house celebrated the lasting legacy while looking ahead to the Cancer Center's next chapter.

THE IMPACT AHEAD

With the Foundation exceeding its fundraising commitment, attention has turned to bringing the vision for the renovated Meredith and Jeannie Ray Cancer Center to life. The project's true impact will be experienced by patients receiving treatment with greater comfort and privacy, families finding guidance and support during difficult moments, and employees delivering compassionate care in an enhanced space.

The renovated infusion rooms will allow the Cancer Center to serve a growing number of patients while preserving the personal, welcoming environment that remains at the heart of its care.

The IMH Foundation extends our heartfelt gratitude to every donor, sponsor, volunteer, and event supporter who helped make this achievement possible. Together, our community exceeded our two-year fundraising commitment and helped ensure exceptional cancer care remains available close to home for years to come.

Note: This is a draft rendering. A final design is expected to be installed in 2027.

SUMMER

HOSPITAL WEEK: FOUNDATION FRIDAY FLOWERS

Each May, Foundation Friday Flowers bring a burst of color and appreciation throughout the hospital. In May 2026, the Foundation distributed more than 700 flowers from Windmill Hill Greenhouse to IMH employees. Each flower was accompanied by a custom thank you card recognizing the dedication IMH employees bring to their work each day.

Delivering flowers to departments throughout Ivinson gave the Foundation a personal way to thank the people who care for the Laramie community. A single flower may be a small gesture, but together, the deliveries offered a positive reminder that the work of Ivinson employees is seen, valued, and deeply appreciated.

A STARRY NIGHT BALL

On June 13, 2026, the Foundation returned to the Marian H. Rochelle Gateway Center for its second La Grande Fluer event of the fiscal year, as there was a decision last fall to shift the date from August to June. *LGF: A Starry Night Ball* was chaired by Walt Hammontree and Lisa Moehrke and the celebration welcomed ~450 guests, becoming the first sold-out La Grande Fleur since before the COVID-19 pandemic.

This event generated the highest gross income in LGF history—$491,161—a record-setting achievement made possible by the dedication of its chairs, sponsors, committee members, volunteers, donors, and guests. The purpose behind the celebration remained at the heart of the evening. Amy Smith, Director of the Meredith and Jeannie Ray Cancer Center, shared an update on the Infusion Room Renovation project, while a moving video illustrated what the renovated space will mean for patients, families, and caregivers.

Inspired by that message, guests raised $100,000 during the paddle raise, and a generous $50,000 matching gift from John Evans brought the total to $150,000. Combined with the $150,000 paddle raise at *LGF: A Silver Screen Spectacular*, the two La Grande Fleur celebrations generated $300,000 towards support of the project during FY26.

The sold-out ballroom, record financial results, and overwhelming support for the Infusion Room Renovation project made *A Starry Night Ball* a defining moment in La Grande Fleur's history.

FOUNDATION BOARD OF DIRECTORS CHANGES

During FY26, the IMH Foundation implemented an updated Board structure and introduced a new Ambassador Committee. Designed to strengthen governance, encourage engagement, and support the Foundation's continued growth, the model more clearly defines the responsibilities of the Board of Directors while creating another way for community members to participate in the Foundation's efforts.

The new structure establishes clearer terms of service, attendance expectations, leadership succession, and updated the annual nomination processes. Board members guide the Foundation's strategic direction, demonstrate leadership through personal giving and service, and identify and cultivate relationships with donors.

Members of the Ambassador Committee support the Foundation through community advocacy, fundraising, committee participation, and volunteer service. Their involvement also provides opportunities to learn more about hospital priorities and to expand Ivinson's network of community support.

Foundation committees also benefit from defined leadership, consistent agendas and meeting records, and Board representation. Together, these changes promote transparency, improve organizational effectiveness, and create opportunities for Board members and Ambassadors to bring their experience, relationships, and passion for healthcare to the Foundation.

BOARD OF DIRECTORS

- Guides strategic direction.
- Demonstrates leadership through giving and service.
- Cultivates donor relationships.
- Provides governance and oversight.

AMBASSADOR COMMITTEE

- Advocates for the Foundation.
- Supports fundraising and events.
- Participates in committees and volunteer opportunities.
- Builds community awareness and connections.

BOARD OF DIRECTORS

The IMH Foundation Board of Directors is comprised of Laramie community members who guide strategic planning, manage investments and funding distributions, and advocate for the Hospital.

*Note: Photos represent IMH Foundation Board of Directors as of June 30, 2026.

Upon resignation from the IMH Foundation Board of Directors, Honorary and Emeritus status is given to Board Members who have contributed a significant amount of time and/or donated at a higher giving level.

MANY THANKS TO THOSE WHO SERVE ON THE BOARD OF DIRECTORS.

WE ARE GRATEFUL FOR YOUR SERVICE.

IMH FOUNDATION 5 YEAR STRATEGIC PLAN

objectives and key results

raise money to enhance ivinson memorial hospital's promise.

- Raise at least 1 million dollars per year (net after expenses).

engage the community and increase awareness of the imh foundation's impact.

- Increase awareness of Ivinson Memorial Hospital Foundation (IMHF)'s impact to Albany county and surrounding areas.
- Develop and deploy at least one targeted awareness campaign per year.

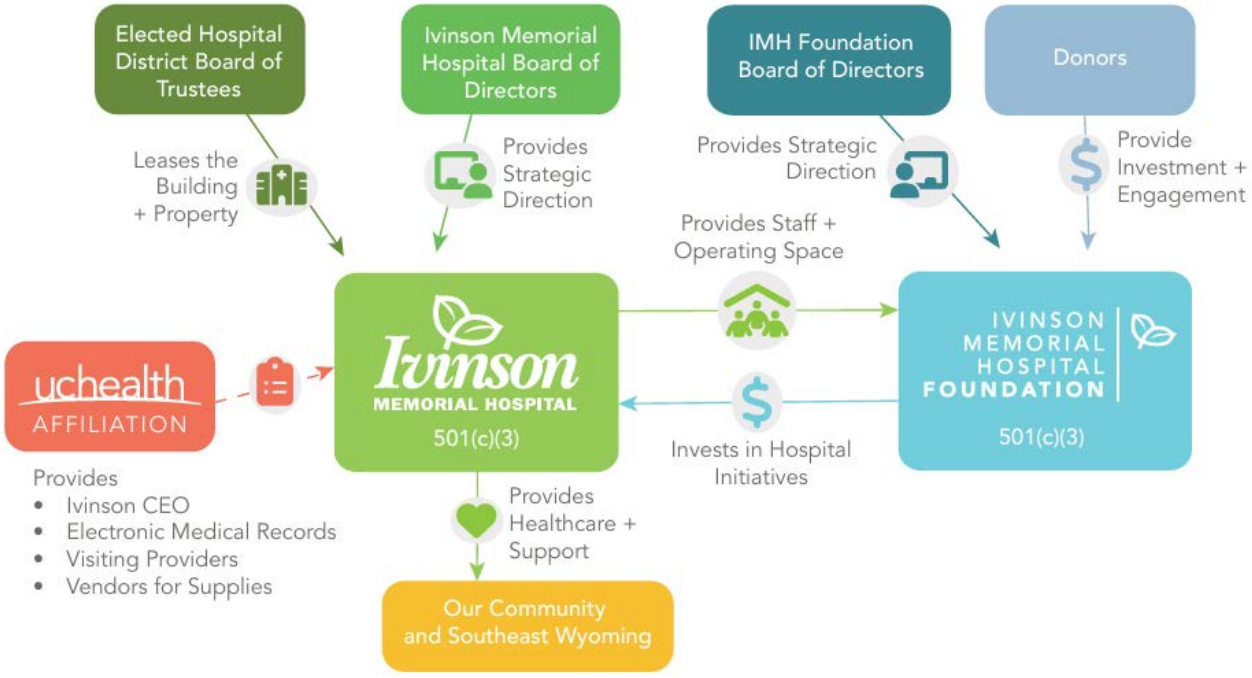

develop operational structures and processes to better support the outlined objectives.

- Develop and deploy policy for operation funding.
- Implement operational OKR process.

evolve the current board to an associate organization with a governing board of directors.

- IMHF is governed by a smaller BoD while getting input and support from a larger associate organization.
- Role expectations, Orientation materials, and onboarding processes are in place for BoD and Associate members.
